

Mainline Instruments Ltd
ISO 27001:2022
Information Security Management Systems

Unit 2 | The Cyclo Works | Lifford Lane | Kings Norton | Birmingham, UK | B30 3DY

Objective

The objective of the information security policy is to ensure the confidentiality, integrity and availability of Mainline Instruments Ltd information and to minimise the risk of damage by preventing security incidents and reducing their potential impact.

Policy Statement

The policy's goal is to protect the organisations information assets against all internal, external, deliberate or accidental threats.

The security policy ensures that:

- Information will be protected against any unauthorized access;
- Confidentiality of information will be assured;
- Integrity of information will be maintained;
- Availability of information for business processes will be maintained;
- Legislative and regulatory requirements will be met;
- Business continuity plans will be developed, maintained and tested;
- Information security training will be available for all employees;
- All actual or suspected information security breaches will be reported to the information security responsible person and will be thoroughly investigated
- To continually improve the Information Security Management System

Responsibilities

All staff are aware of their responsibilities within our management system standards and are committed to its future success. The company supports the appropriate training to ensure the required skills are to the levels expected.

The policy is made available to all interested parties, as requested.
